

OIL & GAS TECHNICAL AND INDUSTRIAL SERVICES

The Complete Solution Provider

Cutech is a diversified and rapidly expanding Engineering Company, offers wide range of Services & Products to Industrial, Commercial & Government Clients across Petrochemical, Process, Oil & Gas, Marine, Cement and Power Sectors.

Cutech offers cost-effective Chemical cleaning service involving the use of reactive chemicals to remove unwanted deposits, corrosion, residual oils and greases, and other obtrusive contaminants from the surfaces of various pieces of process equipment, including components of power-generating units such as boiler and condensers, heat ex-changers in refineries and other industrial equipment. This process is used for passivation to eliminate fouling, oxidation, process system corrosion, and decontamination of process lines and vessels.

KEY SERVICES FOR STATIC & ROTATING EQUIPMENT

- Re-tubing in Shell & Tube Heat-exchangers
- Tube to Tube-sheet Joint welding & welders supply
- Tube Expansions
- Hydro static Testing
- Bolting Service for all static & rotating equipment
